PROFESSIONAL SUMMARY

Motivated and results-driven ICT graduate with a Diploma in ICT in Application Development from the University of Mpumalanga. Experienced in designing and developing web and mobile applications using modern technologies, with a strong foundation in software development, database management, systems integration, and networking. Passionate about digital transformation, data-driven solutions, business intelligence, and emerging technologies. I am eager to contribute to innovative technology solutions.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- JAVASCRIPT
- PYTHON
- PHP

Software Development

- Full-Stack Development
- React Native
- Node.js
- REST API Integration
- WordPress Development

DATABASE TECHNOLOGIES

- MongoDB
- Database Design
- Database Fundamentals
- SQL and database managemen

EDUCATION

University of Mpumalanga
Diploma in ICT in Application Development
Status: Graduated

WEB TECHNOLOGIES

- HTML
- CSS
- JavaScript

DEVELOPMENT TOOLS

- Git
- GitHub
- Visual Studio Code

NETWORKING& SECURITY

- Networking Fundamentals
- Cybersecurity Awareness

Professional Skills

- Business Analysis
- Problem Solving
- negotiation and decision making
- Team Collaboration
- Communication Skills
- Analytical Thinking
- Software Testing
- Technical Documentation
- Interpersonal

KEY STRENGTHS

- Software Development
- Information Systems
- Data Management
- Database Design
- Systems Integration
- Business Intelligence Fundamentals
- Analytical Thinking
- Problem Solving
- Teamwork
- Continuous Learning
- Adaptability

CERTIFICATIONS

- IBM Data Science Tools
- IBM Data Science 101
- FNB App Academy Certificate
- Hackathon Participation Certificate (MAISH)
- Privacy for Students (Cybersecurity Awareness)

PROJECTS

UMP CAMPUS NAVIGATION SYSTEM

TECHNOLOGIES: REACT NATIVE, JAVASCRIPT, MONGODB

- Designed and developed a smart campus navigation mobile application.
- Built an interactive user interface using React Native.
- Integrated MongoDB to store and manage campus information.
- Implemented building navigation and location features.
- Improved accessibility to campus facilities through digital mapping.

UMPCFERI WEBSITE

TECHNOLOGIES: WORDPRESS, PHP, JAVASCRIPT

- Developed and maintained a dynamic website using React, Full stack WordPress.
- Customized themes and plugins according to organizational requirements.
- Enhanced website functionality using JavaScript.
- Managed website content and improved user experience.

EDULEARNING SYSTEM

TECHNOLOGIES: REACT, NODE.JS, MONGODB

- Developed a web-based learning management platform.
- Implemented secure user authentication.
- Built course management and learner progress tracking functionality.
- Integrated backend services with MongoDB.
- Designed a responsive interface for students and instructors.
